Figure 100 is a cross-sectional view of a semiconductor device. The device includes a substrate 110 with a top layer 111 and a bottom layer 114. A central region 112 contains a stack of layers 113, 115, and 116. A top layer 120 is positioned above the central region, with a top surface 121 and a bottom surface 122. A side layer 123 is located between the top layer 120 and the central region 112. A bottom layer 124 is positioned below the central region, with a bottom surface 125 and a top surface 126. A side layer 127 is located between the bottom layer 124 and the central region 112. A top layer 130 is positioned above the top layer 120, with a top surface 131 and a bottom surface 132. A side layer 133 is located between the top layer 130 and the central region 112. A bottom layer 140 is positioned below the bottom layer 124, with a bottom surface 141 and a top surface 142. A side layer 143 is located between the bottom layer 140 and the central region 112. The device is labeled 100.
